## Families First Coronavirus Response Act Mandatory Notice for Distribution

Greetings Valued Client,

As you might be aware, the Families First Coronavirus Relief Act (FFCRA) requires employers to post a notice to employees about the Act's provisions. Yesterday, the DOL released its model notice which summarizes the Act's paid leave entitlements, eligibility requirements, and qualifying reasons for taking leave.

Please click the link below to access a copy of the model notice, immediately post this notice in a conspicuous place in your workplace, and either email to remote employees or post on your intranet/extranet site. You must also provide a copy of this notice to any new hire.

If you have any questions, please reach out to your HR Account Manager for assistance.
